

# NSF Grants: An Introduction

Presented by Arkansas NSF EPSCoR &  
the Arkansas Small Business & Technology Development Center

**A free workshop for students and faculty interested in learning more about grant opportunities at the National Science Foundation (NSF) and privately consult with experts from around the country.**

Space for in-person attendees is limited, please register at your earliest convenience to ensure a seat. WebEx will also be available for some workshop sessions.

## Monday March 7, 2016

 WEB

NSF Engineering (ENG) and Materials Engineering & Processing (MEP) Funding & Industry Collaboration Opportunities with Dr. Alexis Lewis of NSF/CMMI.

IN PERSON

NSF BRAIN Initiative Funding Opportunities Presentation and Q&A session with Dr. Edda Floh Thiels (NSF IOS Program Director). this event will also be broadcast via web.

## Tuesday March 8, 2016

IN PERSON

Ask The Tech Experts, presented by ASBTDC. This event can only be attended in person on campus due to the nature of the activity. This is an opportunity for attendees to engage in 1-on-1 sessions with 8 tech experts who have expertise in areas ranging from commercialization to state and federal funding programs and intellectual property. Also, ASBTDC staff will provide guided demonstrations of market research searches. Event details: <http://asbtdc.org/ask-the-tech-experts/>
